**SECTION 4: First Aid Measures**

**Inhalation:** Move person to fresh air. Get medical attention if symptoms develop.

**Eye contact:** Bathe the eye with running water for at least 15 minutes, lifting upper and lower eyelids. Get medical attention if symptoms persist.

**Skin contact:** Drench the affected area immediately with plenty of water, remove contaminated clothing. Wash thoroughly with soap and water for at least 15 minutes. Seek medical attention if irritation, rash, or other adverse effects occur.

**Ingestion:** Rinse mouth then drink plenty of water. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical attention/advice if you feel unwell.

**Most important symptoms and effects, both acute and delayed**

Skin irritation. May cause redness and pain. May cause allergic reactions. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

**SECTION 5: Fire Fighting Measures**

Flash Point: N/A

LEL: N/A

UEL: N/A

**Extinguishing media:** Carbon dioxide, alcohol resistant foam, dry chemical, water fog; use water spray to cool fire-exposed containers. Do not use direct water stream which may spread fire.

**Unusual fire/ expl. hazards:** Exposure to decomposition products may be harmful to health; combustion products may include but are not limited to: carbon monoxide, carbon dioxide, phenolics; smoke may contain particles of the original material as well. Prevent fire-fighting waters from entering sewer or waterways.

**Fire equipment:** Use protective fire fighting clothing and positive pressure self-contained breathing apparatus to protect against potential harmful and/or irritating fumes. Do not use high volume water jet as this may spread the area of the fire.

**SECTION 6: Accidental Release Measures****Personal precautions, protective equipment and emergency procedures**

Isolate area; ensure adequate ventilation; use appropriate personal protection equipment; avoid breathing mist, vapors, spray; avoid contact with skin, eyes and clothing; keep unnecessary and unprotected personnel from entering the involved area.

**Environment precautions;**

Prevent contamination of soil and water. Prevent from spreading or entering into drains ditches, waterways by using sand, earth or appropriate barriers.

**Method and material for containment and cleaning up**

Absorb with sand, diatomaceous earth or universal binders and collect into suitable disposal container. Dispose of in accordance with applicable local and federal environmental control laws and regulations.

## SECTION 7: Handling and Storage

### Precautions for safe handling

Ensure adequate ventilation of workplace and storage areas; avoid skin contact; do not breathe mist, vapors, spray; use recommended personal protective equipment; wash thoroughly after handling. Do not eat, drink or smoke in the work area. Avoid use of electric band heaters (failures of such heaters have been reported to cause drums of liquid epoxy resin to explode and catch fire). Never apply a direct flame to any container of product.

### Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated place. Keep away from incompatible materials. Keep container tightly closed. Recommended storage temperature: 10-35C (50-95F)
